## Profile

Aspiring to secure an entry-level Software Developer role to apply technical skills, learn, and contribute effectively to an organization's success. Excited to collaborate with a development team and enhance software development abilities.

## Experience

JR. JAVA DEVELOPER

JUNE(2023)-AUG(2023)

ENSURE IT SOLUTION , JAIPUR, RAJASTHAN

Successfully set up and ran the project on a local server, integrating its dependencies, while also identifying and resolving errors . Additionally, I developed RESTful APIs using Java, SpringBoot, and Hibernate.

## Projects

**CONTACTIFY - ONLINE CONTACT STORAGE (JAVA WEB APPLICATION)**

### Features:

- User-Friendly Interface:** Intuitive for easy navigation.
- Contact Management:** Add, edit, and delete contacts.
- Secure Storage:** Contacts are stored securely.
- Search Functionality:** Find specific contacts.
- Accessibility:** Use from any device with internet access.
- Customization:** Organize contacts into categories.

CONTACTIFY, a Java-based web app, streamlines contact management for user convenience and accessibility.

## Employee Management System (Using API'S)

### Features:

- Developed a Spring Boot-based Employee Management System.
- Aimed at efficient employee data management.
- Implemented RESTful APIs for CRUD (Create, Read, Update, Delete) operations.
- Significantly streamlined employee management processes.
- Utilized a database for storing and managing employee data.

## Certifications

- C++ language - Great Learning
- Core java - learn Tube
- Spring - Ecosystem and core - coursera
- Spring MVC, Spring Boot and Rest Controllers - coursera
