Jaipur, Rajasthan

Objective

To obtain an entry-level Java development position in a reputable organization where I can utilize my technical skills in Java, Spring MVC, Spring Boot HTML, and CSS to create innovative solutions, gain experience, and contribute to organizational success. As a fast learner with exceptional problem-solving skills, I am excited to work with a team of developers and continuously enhance my software development abilities.

Experience

Java Training

IIT Kharagpur • Jaipur, Rajasthan

- Experience with java development
- An understanding of how to write clean, efficient, well tested code.
- Learn about the basics of java concepts .
- Learn about the 4 Pillars of OOP's Concept.
- A keenness to learn and to work in a highly collaborative environment.

Education

B. tech

Arya Institute of Engineering Technology and Management• Jaipur, Rajasthan

High School

B.L. MEM.SEN.SEC.SCHOOL • Sri Ganganagar, Rajasthan   07/2020

Secondary Education

B.L. MEM.SEN.SEC.SCHOOL • Sri Ganganagar, Rajasthan   07/2018

Project

Contactify - Online Contact Storage (Java Web Application)

As a fresher, I developed a Contactify web application using Java Spring Boot, showcasing my skills in web development and Java programming. Contactify is a contact management application designed to securely store and manage contacts with additional features aimed at enhancing user experience and data security.

Key Contributions:

- Developed a web application using Java Spring Boot framework, ensuring efficient and reliable performance.
- Implemented a robust contact storage system that allows users to store, update, and manage their contact

information effectively.

- Prioritized data security by incorporating the bcryptPassword Encoder, a strong encryption algorithm, to safeguard sensitive user data.

- Designed and developed a user-friendly login page and sign up to ensure secure access to the application.

- Implemented a forgot Password module to facilitate password recovery for users who may have forgotten their credentials.

- Enhanced user experience by creating a responsive and intuitive user interface, allowing seamless navigation and interaction with the application.

This project allowed me to demonstrate my skills in Java programming, web development, data security, and user experience design. It showcased my ability to work with frameworks such as Spring Boot and implement industry-standard security practices. Overall, the Contactify web application reflects my dedication to delivering robust and user-centric solutions while ensuring data privacy and security.

Technical Skills :

C++ , Core java

HTML, CSS

SQL, Hibernate (ORM), DSA

Spring MVC, Spring Boot

Certificates

- C++ language

- Core java

- Graphic designer

- Spring – Ecosystem and core

- Spring MVC, Spring Boot and Rest Controllers

Soft Skills

➤ Communication Skills
➤ Leadership Skills
➤ Team Work
➤ Good Listener
➤ Adaptability

Languages

English, Hindi, Punjabi

Summary

Diligent Computer Science major currently attending Arya Institute of Engineering, Technology and Management College **With 45 days training of Core java.** Aiming to leverage a proven of advance technology and application development skillet successfully fill the intern role or job role at your company. I want to stretch my skill and want to became a part of your company. **Frequently praised as hardworking by my peers** I can be relied upon to help your company to achieve its goals.

Declaration

I hereby declare that all the information given above is correct to the best of my knowledge.
